

DUCTLESS MINI-SPLIT LINESET

CAUTION PLEASE READ

Your lineset comes with the following:

1. Liquid line fitting for condenser
2. Suction line fitting for condenser
3. Liquid line
4. Suction line

Tips on working with your lineset:

- Be extremely careful when unrolling the lineset. This step is very important! Take your time and make long sweeping bends. Be careful not to kink the pipe.
- Do not remove the caps until you are ready to connect the pipes to the quick connect fittings. You cannot have any dirt or debris in the ends of the pipes before you connect them.
- Carefully coil the excess lineset behind the condenser. Keeping the excess lineset as upright as possible.

If you have any questions regarding the lineset or the installation of this unit, please contact us at 844-4PA-AIRE (844-472-2473) or email us at support@perfectaire.us
